

Professional profile

I am a motivated and technically minded individual seeking a role in I.T. / Networking. I have strong soft skills acquired from various work experience opportunities as well as building my professional profile with employability coaching. I have a wide range of experience with various operating systems (Windows, Mac, Linux, etc) as well as skilled in network security, setting up network infrastructure, and troubleshooting. I am resilient and adaptable with excellent organisation and punctuality. I am looking for a role that will challenge my skillset and allow me to grow both personally and professionally.
